

BEE THAO

Software Engineer

Bee Thao | (920) 242-4062 | [LinkedIn](#) | [GitHub](#)

I am a detail-oriented software engineer passionate about continuous learning and staying at the forefront of technology. I will bring a proven ability to drive positive organizational outcomes through innovative solutions and collaborative teamwork. I excel at solving complex, high-stakes problems and am dedicated to continuous improvement and contributing to my team's success.

Core Competencies

Languages: JavaScript, Python, SQL, HTML, CSS

Technologies: React, Node.js/Express.js, Git, GitHub, CLI, Docker, SQLAlchemy, Flask, PostgreSQL, Visual Studio/VS Code

Project

Poultry Center (ReactJS, Redux, CSS, Express, SQLite3 / PostgreSQL)

[Live](#) | [GitHub](#)

- Built secure authentication and user management functions using JSON Web Tokens (JWT) and bcrypt for password hashing.
- Set up a RESTful API with Express to handle requests, manage authentication, and interact with the database.
- Designed a modern, intuitive user interface (UI) using CSS to optimize the overall user experience (UX).

BB Cribs (ReactJS, Redux, CSS, Express, SQLite3 / PostgreSQL)

[Live](#) | [GitHub](#)

- Utilized Redux to manage complex application state, ensuring predictable data flow and enhanced application stability.
- Optimized database performance by leveraging SQLite3 / PostgreSQL to deliver high-speed storage and retrieval for property listings and user profiles.

Group 96 Investors (Flask, PostgreSQL, Alembic, ReactJS)

[Live](#) | [GitHub](#)

- Built a RESTful API using Flask, providing robust endpoints for user authentication, and investment tracking.
- Implemented client-side routing with React Router to facilitate seamless transitions between different components.
- Collaborated in a simulated agile team environment to develop communication, teamwork, and collective problem-solving skills.

Professional Experience

Supportive Home Care, ILife – Milwaukee, WI

Mar 2024 – Present

- Optimize time tracking to ensure all tasks are completed within the shift.
- Aiding and ensuring safety, comfort, and well-being of the individual who has difficulty managing their daily activities such as bathing, dressing, grooming, assisting with mobility, and incontinent care.
- Household management, assisting in cleaning, laundry, and meal preparations.

Machine Operator, Tenneco – Manitowoc, WI

Jul 2010 – July 2021

- Responsible for fabricating machines such as cut-off saws, shears, brakes, presses, forming machines, and more to cut, shape, and bend metal products into desired shape and structures.
- Communicate effectively with team members and cross-shift colleagues to align on daily priorities.
- Analyze machine operations to detect defects or any malfunctions, with daily troubleshooting, maintenance, and setup.

Education

Full-time Coding Bootcamp

App Academy (Remote), San Francisco, CA

Graduated Jan 2025
